PROFESSIONAL SUMMARY

I am a motivated 3rd-year Software Engineering student at Ontario Tech University, eager to secure my first software development position. With a solid academic foundation and a genuine passion for innovative solutions, I have a strong grasp of programming languages, data structures, and software design. My ability to quickly learn, attention to detail, and collaborative nature make me a valuable asset. Committed to continuous learning, I am ready to contribute my technical expertise to a dynamic organization as an aspiring software developer.
SKILLS

Java

Python

html, css, js
